Technical Skills

Programming Languages: Python, C, Java, Scheme, HTML, CSS, XML

Tools: Android Studio, Git, AutoCAD, Microsoft Office

Projects

Library Catalogue App | Java, XML, Android Studio

- ❖ Developed an Android application that allows the user to create a custom library catalogue for their books
- ❖ Allows users to create a library of books and includes a check out and return feature to keep track of who is borrowing user's books

Unit Converter App | Python

- ❖ Built a unit converter app that allows users to convert between various unit categories
- ❖ Created the easy-to-use user interface using the Tkinter library

Personal Website | HTML, CSS

- ❖ Built my personal website that introduces myself and links to useful information about myself on various platforms
- ❖ Used HTML and CSS to create and style the website with buttons, headings, and images

Pong Game | Python

- ❖ Created my own version of the popular game of "Pong" using Python and the Pygame library

Experience
